Sept 16	Rest	1 mile run	Cross	1.5 - 2 mile run	Rest	Cross	2.5 mile run
Sept 23	Rest	1 mile run	Cross	1 mile run	Rest	Cross	<b>5k (3.11 miles)</b>

**RACE DAY!**

Cross training examples: Walk, Bike, Swim, Weight Lifting, Other Sports (Soccer, Ultimate Frisbee, Basketball, etc)

Walk/run intervals can be whatever works for you whether that is 50/50 to start or 25% run to 75% walk. Try and get up to running more than walking before straight runs start.

This is a very loose schedule. Take it and modify as needed to work with your life.

- The specific days are not as important as the number of days and overall mileage per session
